Probate Judge,

RELF BLEDSOE.

Auditor and Recorder,

N. M. HANTHORN.

Superintendent Public Instruction,

J. H. WHITSON.

Coroner,

Dr. J. L. STEPHENS.

THE PEOPLE PAY THE EXPENSE.—As an evidence of the unscrupulous means resorted to by Grant's underlings to aid and assist in his re-election, we have a case in point. A few days ago we received a package by mail addressed to the "WORLD," which was stamped "Department of the Interior. Official Business," under the frank of Th. Delano, Chief Clerk. On opening it we found a report of a visit to the Sioux and Ponks Indians, made by William Welsh, and also a printed copy of a speech of Columbus Delano delivered at Raleigh, North Carolina, July 24, 1872, in defense of the Administration, and abusing Horace Greeley and the Democracy. It conclusively establishes the charge made that the Departments of the General Government, and Grant's truckling servants and chief supporters are swindling the Government out of postage and burdening the mails with campaign documents in behalf of their chief. The committee rooms in the National Capitol are changed into folding and mailing rooms for the Grant and Wilson Executive Committee; and clerks in the various Departments are released from their official duties and detailed to assist in getting up and transmitting through the mails campaign publications in the interest of the Radical candidates. The printing of various pamphlets is done at the expense of the people, at the Government Printing Office, and tons of electioneering documents are transmitted, free of postage, through the mails for general distribution throughout the country. Requisitions are made upon every department of the public service; and the whole force of government officials brought into active service to aid and assist in the re-election of their master, whose sole will determines the tenure of their offices. The people as a whole are made to defray the campaign expenses of the Radical candidates; and civil service reform, while advocated as a popular measure by the Radical speakers, is scouted at the Radical headquarters in Washington. Every appliance under the control of the Administration is brought into requisition, and unscrupulously used to advance the interests of Grant and Wilson. The public funds are used without stint, and the public officials are compelled to show their zeal in favor of the Radical candidates by devoting not only their time, but the funds appropriated to the branch of the service to which they belong in the effort to obtain a renewed lease of power to the great gift-taker of the age.

GETTING LIVELY.—The newspaper war between the Statesman and Avalanche is becoming somewhat interesting, and the "Oregon style" is invoked as the only effective manner in which our cotemporaries can make known the estimation in which each holds the other. Jim Reynolds, in his palmy days, wasn't a circumstance. In the last issue of the Avalanche, "Old Hill" pours out the vials of his wrath in a philippic occupying about three-quarters of a column, which exhausts Webster's Unabridged in picturing the moral deformity and corruption of Judge Kelly. If what our neighbors say of each other, or even one-half of it, be true, they must certainly be a couple of hard cases. We are disposed, however, to make allowances for both, and give them credit for more zeal than discretion in the manner in which they present and maintain their respective views and opinions.

DEAD.—William H. Russell, who was the head of the well-known freighting and overland express firm, years ago, of Russell, Majors & Waddell, died at Palmyra, Missouri, September 10th. Mr. Alexander Majors, now a resident of Utah Territory, is the only surviving member of that celebrated firm, Waddell having died at Lexington, Missouri, a short time ago.

ON RAILROADS.—The Avalanche advocates the construction of a narrow-gauge railroad from Winnemucca to Boise City, and in an able article in the last issue our friend Hill presents some very sound reasons why a narrow-gauge is preferable to a broad-gauge road, the principal one being the great difference in the cost of construction. We view the matter in the same light, and are fully satisfied that a narrow-gauge road will not only fully meet the requirements of our Territory and of Eastern Oregon, but that it lies within the means of the people of Southern Idaho to secure the construction of the road proposed. With such aid as may be procured from the Legislature, in connection with private subscriptions to the capital stock of the company, a sufficient amount could be raised to get the work well under way, and then by mortgaging the road the necessary capital to complete the work and stock the road could be easily procured either in the East or in Europe. Railroad or no railroad, is the overshadowing question of the day with the people of Idaho; and while all admit that our future depends on the early construction of a road connecting with the Overland, yet the fear of overtaxing the people, or visions of Territorial bankruptcy, seems to cloud the judgment of many and deter them from taking what they call such desperate chances in order to obtain a road. Unless we risk something, we can gain nothing; and while our taxes for a few years would, of course, be somewhat increased, the revenue derived from taxation of the railroad when completed would amount to more than the whole revenue of the Territory at the present time. The construction of a narrow-gauge road from Winnemucca to Boise City would be but the commencement of a system of railroads in Idaho, and long before the completion of the proposed road, we have no hesitancy in predicting that work would be commenced on the road down Snake river Valley from some point on the Union Pacific road, on the Portland, Dalles and Salt Lake route. Since the inauguration of railroad enterprises in the Territory of Colorado, nearly one thousand miles have been completed, all within the past nine years; and the revenue accruing to the Territory from that source has become such that during the present year no taxes are collected in Colorado for Territorial purposes, and there is over one hundred thousand dollars in the treasury of that Territory. If we are correctly informed, the Territory of Utah enjoys the same happy state of financial prosperity, and it was all brought about through the instrumentality of the railroad system. The people of Montana are wide awake to their interests in this respect, and are determined to have a railroad connection with Corinne on the Overland route; and the narrow-gauge road from Ogden is being rapidly pushed forward toward Soda Springs through Eastern Idaho, and will, without doubt, in a few years, be completed to Virginia City, Montana. The latter Territory, for two or three years past, has enjoyed the facilities of telegraphic connection with the balance of the world, while Idaho, the older Territory of the two, has neither railroad nor telegraph, and never will have unless the people take hold of the matter with a will and exhibit a little more energy and enterprise than has distinguished them in the past. It is time we were rubbing our eyes and waking up. If we don't want to be left entirely out in the cold; and we are glad that our Owyhee cotemporary has concluded to arouse the people in his section to the importance of some early action being taken.

A DOUTFUL COMPLIMENT.—A fellow named William Welsh, who makes his headquarters in Philadelphia, has recently been on a visit to the Indian Agencies on the Upper Missouri that are under the control of the Board of Missions of the Protestant Episcopal Church; and in his report made to the Secretary of the Interior he shows his ignorance of Indian affairs and the Indian character generally. In his talk to the Lower Brule Sioux, Mr. Welsh says he told them that "their Great Father in Washington had an Indian heart." While we are not disposed to doubt the truth of the statement, we think that Grant will not relish the compliment. The truth sometimes hurts; and if the Brule Sioux place any confidence in Welsh's statement on that point, they will have but slight reason to place much confidence in the promises of their aforesaid "Great Father."

THE DIFFERENCE.—The Radicals are continually prating about what they have done for the negro, and have succeeded in making a large proportion of the colored race believe that the Democratic party, if in power, would not only deprive them of all educational advantages, but would even deprive them of all their constitutional rights and privileges as American citizens. The State of Virginia, under Democratic rule, has already established over 700 schools for the colored population in that State, while South Carolina, the negroes' paradise, under Radical rule, has established no schools; and the Radical State officials have stolen all the school money, thus breaking up what negro schools were already established. The comparison between the policy and practice of the two parties is thus fairly illustrated, and is certainly anything but creditable to the Radicals.

NOT MUCH OF A CHANGE.—Since the Oregonian changed hands the Bulletin announces that that institution is to pass into the hands of a joint stock company, and from being an independent paper will henceforth be the organ of the Radical party in Oregon. Nobody has ever yet known the Bulletin to be independent in anything. It has been the special organ of the railroad interests in that State, being owned by Ben Holladay; and has labored, with good effect, too, in the interests of the Radical party ever since it commenced publication. Hence the announcement that it will hereafter be a party organ, was entirely superfluous. Mr. O'Meara still controls the editorial columns with his usual ability.

THE OFFICIAL COUNT IN MONTANA.—The Montana Avant Courier gives the result of the official canvass of the votes cast at the late election in that Territory as follows: For Delegate to Congress, Clagett 4,196, Maginnis 4,515. Majority for Maginnis, Democrat, 319. The question of removing the seat of government from Virginia City to Deer Lodge City was negatived—Virginia City having 1,594 majority.

COMING AT LAST.—The Avalanche announces that Mr. McDowell, special Postal agent for the Pacific coast, is expected to visit Idaho during the present week. We are glad to hear it, as his presence has been badly needed in Southern Idaho for some time. We hope he will examine into our postal affairs thoroughly, and straighten affairs so as to render matters somewhat endurable.

LIBERAL ENDOWMENT.—Hon. Edward Tompkins, of California, has decided to the University of California forty-seven acres of land, valued at \$50,000, for the endowment of a Professorship of Oriental Languages and Literature in that institution to be called the "Agassiz Professorship."

NOMINATED.—Charles Sumner has been nominated for Governor of Massachusetts by the Democrats and Liberal Republicans. It is rumored that he will decline the nomination.

PROCEEDINGS OF THE DEMOCRATIC COUNTY CENTRAL COMMITTEE.

Pursuant to call, the Democratic County Central Committee met in Idaho City on Monday, September 23d. Present, Hon. E. A. Stevenson, Chairman, M. G. Lunney, Francois Miller and Con Haley, by Jesse R. Bradford, proxy.

Mr. David Murray, a member of the Committee, having removed from the county, on motion, Mr. John Merrill was appointed to fill the vacancy.

On motion of M. G. Lunney, George Ainslie was unanimously nominated as a candidate for Council, for the short term, to fill the vacancy caused by the death of Hon. Thomas Cox.

No further business appearing, the Committee adjourned to meet again October 14, 1872.

E. A. STEVENSON, Ch'm.

G. W. THATCHER, Sec'y.

AN OVATION.—One of the most imposing political demonstrations of the campaign took place in New Albany, Indiana, on the evening of September 7th, on the occasion of the arrival of the Hon. Thomas A. Hendricks at that place, in making his canvass of the State. The Democracy of Jeffersonville united with their New Albany brethren, and the Hendricks' battalion of the former place, numbering one thousand and strong, dressed in gay uniforms, under the command of Col. George Howard, marched in a body to New Albany, where they were received, with large delegations from surrounding counties, with the utmost enthusiasm. The procession in New Albany was composed of twenty-five hundred men in full uniform, bearing torches, one thousand more in uniform, on horseback, outside of the citizens, also mounted, who joined in the procession. Special trains conveyed large numbers of people from every direction to the scene of this grand ovation to Indiana's favorite son, and the occasion is said to have exceeded in enthusiasm, as well as numbers, any political meeting, ever before held in the State. Ex-Senator Hendricks is the most popular man in his State, and his canvass during the present campaign is but a triumphal march. The Administration is engaged in importing Radical stump speakers into that State in the hope of propping up and sustaining the falling fortunes of Morton and Grant; and the Radical understriders are engaged in importing, from Kentucky, large numbers of vagrant negroes, ostensibly, to work on railroads, for the purpose of filling up the gaps in the Radical ranks, caused by the defection of honest and liberal minded Republicans, in the hope of, "by any means, fair or foul," defeating the will of the bona fide residents and citizens of the State; and thus securing Morton's return to the United States Senate, and the electoral vote of Indiana for Grant and Wilson. Negroes are constantly arriving at different towns in the frontier counties who claim to have been sent into different sections to go to work on railroads, but the vigilance of the Democrats and Liberals, whose suspicions were aroused, will, in all probability, defeat these rascally and villainous schemes of Grant and his dirty tools. That Thomas A. Hendricks will be the next Governor of Indiana there can be no manner of doubt; and Morton, the physically and morally leprous libel on humanity, who is the fit tool and right-hand bower of Grant, the great gift-taker, will be consigned by the voice of the people of his State to the shades of private life, there to meditate and ponder over the evils of a mispent life. God Almighty grant that such corrupt politicians and demagogues may receive their deserts at the hands of an outraged and betrayed people everywhere. That the sober, second thought of the honest masses may govern their political action; and an era of peace and prosperity be inaugurated as the result of the coming presidential contest through the election of Honest Horace Greeley and B. Gratz Brown to the two highest offices within the gift of the American people.

OWYHEE ITEMS.—We take the following from the Avalanche of September 21st:

An accident happened to the stage coming from Boise City, a short distance from Bonaville, last Friday evening, which resulted in the driver being badly hurt and two passengers slightly injured.

Messrs. Jones & Bonney have had considerable lumber stolen from their camp under Masonic hall. William Duncan, one of the pioneers of Owyhee, was recently shot and killed by his partner, Sam Handy, at Spruce Mining District, Utah.

Mr. Joseph Brooks was prostrated with a severe stroke of apoplexy, last Thursday night, and his life for a time despaired of.

There is a scarcity of miners in Owyhee.

A large body of very high grade ore has been developed in the 8th level in the Ida Empire mine. The dam at the mouth of the 6th level has been completed and is a signal success, increasing the value of the property several thousand dollars.

Rich ore has been struck in the Rising Star mine, in Flint District, but the mine is very spotted.

The South Mountain Smelting Company have purchased Robie's saw mill, so as to enable them to saw their own lumber and furnish the necessary power for their furnace. The mills are now being cast at the Silver City foundry, and the other machinery will soon arrive from San Francisco. It is expected that the furnace will be ready for smelting on or before the 20th of October.

The Empire mine is furnishing ore that will pay from \$50 to \$60 per ton, sufficient to keep ten stamps constantly at work.

The Mammoth ledge turns out better in the fourth level than in any other drift or level above.

The main shaft in the South Chariot is being put down as rapidly as possible for the 6th level.

Five tons of ore from the Home Interest, crushed at the Cosmos mill yielded \$81 75 per ton.

Charley Leonard and F. T. Douglas have recently discovered a large and rich gold-bearing quartz ledge near the summit of Florida Mountain.

Ore from the Illinois Central yields over \$140 per ton.

During the week ending September 21st, Wells, Fargo & Co. shipped from Silver City 8 bars of bullion, valued at \$19,288 98.

The last batch of ore from the Morning Star mine, crushed at the Cosmos mill, yielded \$115 per ton.

The Mahogany is yielding very high grade ore from a large vein in the 6th level.

H. B. Eastman, proprietor of the Idaho Hotel, in Silver City, was married, on September 15th, to Mrs. Mary Blackinger, and they left on a wedding tour to the Atlantic States.

Old Hill has moved the Avalanche into his new office, and invites all his friends, male and female, to visit him in his new quarters.

THE WEATHER.—We have had quite a change of weather in the last few days, and stoves and firewood are in demand. On last Sunday morning the mountains were covered with snow in every direction, and everything betokened an early set in of winter. At Pioneer City, Quartzburg and other camps the ground was covered with snow, but none fell in Idaho City. The days are pleasant and sunny, but fires are required in-doors, while the nights are not only frosty, but decidedly wintry.

It makes a man feel chilly to look at Uncle John Silson's lye wagon, and for that reason, probably, he has ceased making his regular rounds.

ELEVATOR DESTROYED.—The large grain elevator at South Vallejo, Cal., which was the only elevator on the Coast, fell, on September 16th, and was totally destroyed, with five thousand tons of wheat, which were in the bins. The accident was caused by the piling of the foundation giving way. The loss is estimated at \$250,000.

CLOSING.—At last accounts the prosecution had closed in the trial of Mrs. Fair in San Francisco, and the evidence for the defense was being introduced.

DENIED.—Judge Myrick, of the San Francisco Probate Court, has denied Matilda Heron's application for a family allowance out of the estate of the late Harry Byrne, without prejudice to her claim for a share of the estate as the widow.

IN SESSION.—The Grand Lodge I. O. O. F. of the United States met at Baltimore on September 16th. Forty-one Grand Lodges and thirty-one Encampments were represented by 127 delegates.

LIST OF LETTERS

Remaining in the Postoffice at Idaho City, on the 26th day of September, which, if not called for within thirty days will be sent to the Dead Letter Office:

Elledge J W Hazeltine A C Offord H W
Elwell G W Mespile Father Porter Orlando
Gray G H Morgan T Ray Henry
Groom J F Malory Miss M Underwood W R

Persons calling for any of the above letters will say "advertised," and give date of list.

JAMES A. PINNEY, P. M.

New Advertisements.
